

On 17th October, we celebrated Dr.Suzuki' s 124th birthday. (2022/10/18up)

Dr.Shinich and Lady Suzuki are buried at Nakayama cemetery, in the suburb of Matsumoto city. The grave is located at the top of the cemetery hill where we can get the best view of colorful autumn mountain views. It was unluckily drizzling so we could not play Kirakira-boshi in front of the grave.

However several members visited a few days before and sang hymns celebrating his birthday.

Dr.Suzuki seems to be expecting many of his students from the World will visit his grave next year celebrating 125th birthday.
